

Science PLC Agenda

8-29-2022

Jay Kurima, Lucas Tucker and Andrew Brinker

**Discuss department Professional Goals as a department.**

Do cool stuff – what does that look like for each teacher. Field Work in Biology, Games and demonstrations in Chemistry, more Making activities and labs.

**Discuss SLO Goals as a department.**

Biology – Use MAP testing to monitor improvement in freshmen biology students.

Chemistry – Implement grade reflection activity and student success will be students turning in more work.

Physics – Spending more time on teamwork for projects and studying. Better they are in group work the more successful they will be.
