

## Science Department PLC Agenda 9/7/2022

### Agenda:

- Meeting to discuss that we don't need to meet this week

### Minutes:

- We met to discuss that we didn't need to meet, and then proceeded to create a new experimental plan for biological studies on fish collected in the trinity river and a methodology for analyzing the microplastics in their digestive tract. Next weeks PLC we will now be about experimentally testing our methodologies and techniques.
